

The *Eco* Sense Range

First Impressions Count!

At William Cope, we are passionate about sustainability and doing our bit to help preserve our environment for future generations.

This collection is **SUSTAINABLE, CARBON NEUTRAL** and for some products even **CARBON NEGATIVE**. It is completely flexible in terms of design with made to measure or standard sizes and a wide range of colours and finishes.

Welcome to *Eco* Sense

Eco Sense Grey Bardolino Oak / Eco Sense Dust Grey

Eco Sense Sepia Gladstone Oak / Eco Sense Alpine White

Eco Sense Grey Dust grey / Eco Sense Porcelain

3

The Eco Sense range has been developed to produce as little impact on the environment as possible when in manufacture, in terms of energy use and waste pollution.

With materials sourced locally (within 150km radius from a plant)

All boards are 100% recyclable and carbon negative so even after manufacture, when the boards are replaced, they can be recycled and made into something new.

Eco Sense Dust grey

Eco Sense Dark chicago concrete/ Eco Sense Pebble grey

Eco Sense Alpine White /Eco Sense Light grey

Eco Sense solid colours

The Eco Sense range is full of vibrant hues, brilliant gloss and super matt laquered finishes which will brighten up your home and create a sophisticated and inviting environment.

With high stain and scrtch resistance, the Eco Sense makes for a durable and robust door.

These are just a few of the most popular Eco Sense colours. Contact us to learn more about the wider range.

Previous William Cope Kitchen Projects

Here are a few previous projects which William Cope have completed.

Each one was designed and built using the Eco Sense Range - The possibilities are endless!

Cashmere with top profile handles and quartz work-tops

Graphite Matt with top profile handles and a dektion worktop

White gloss with top profile handles and quartz work-tops

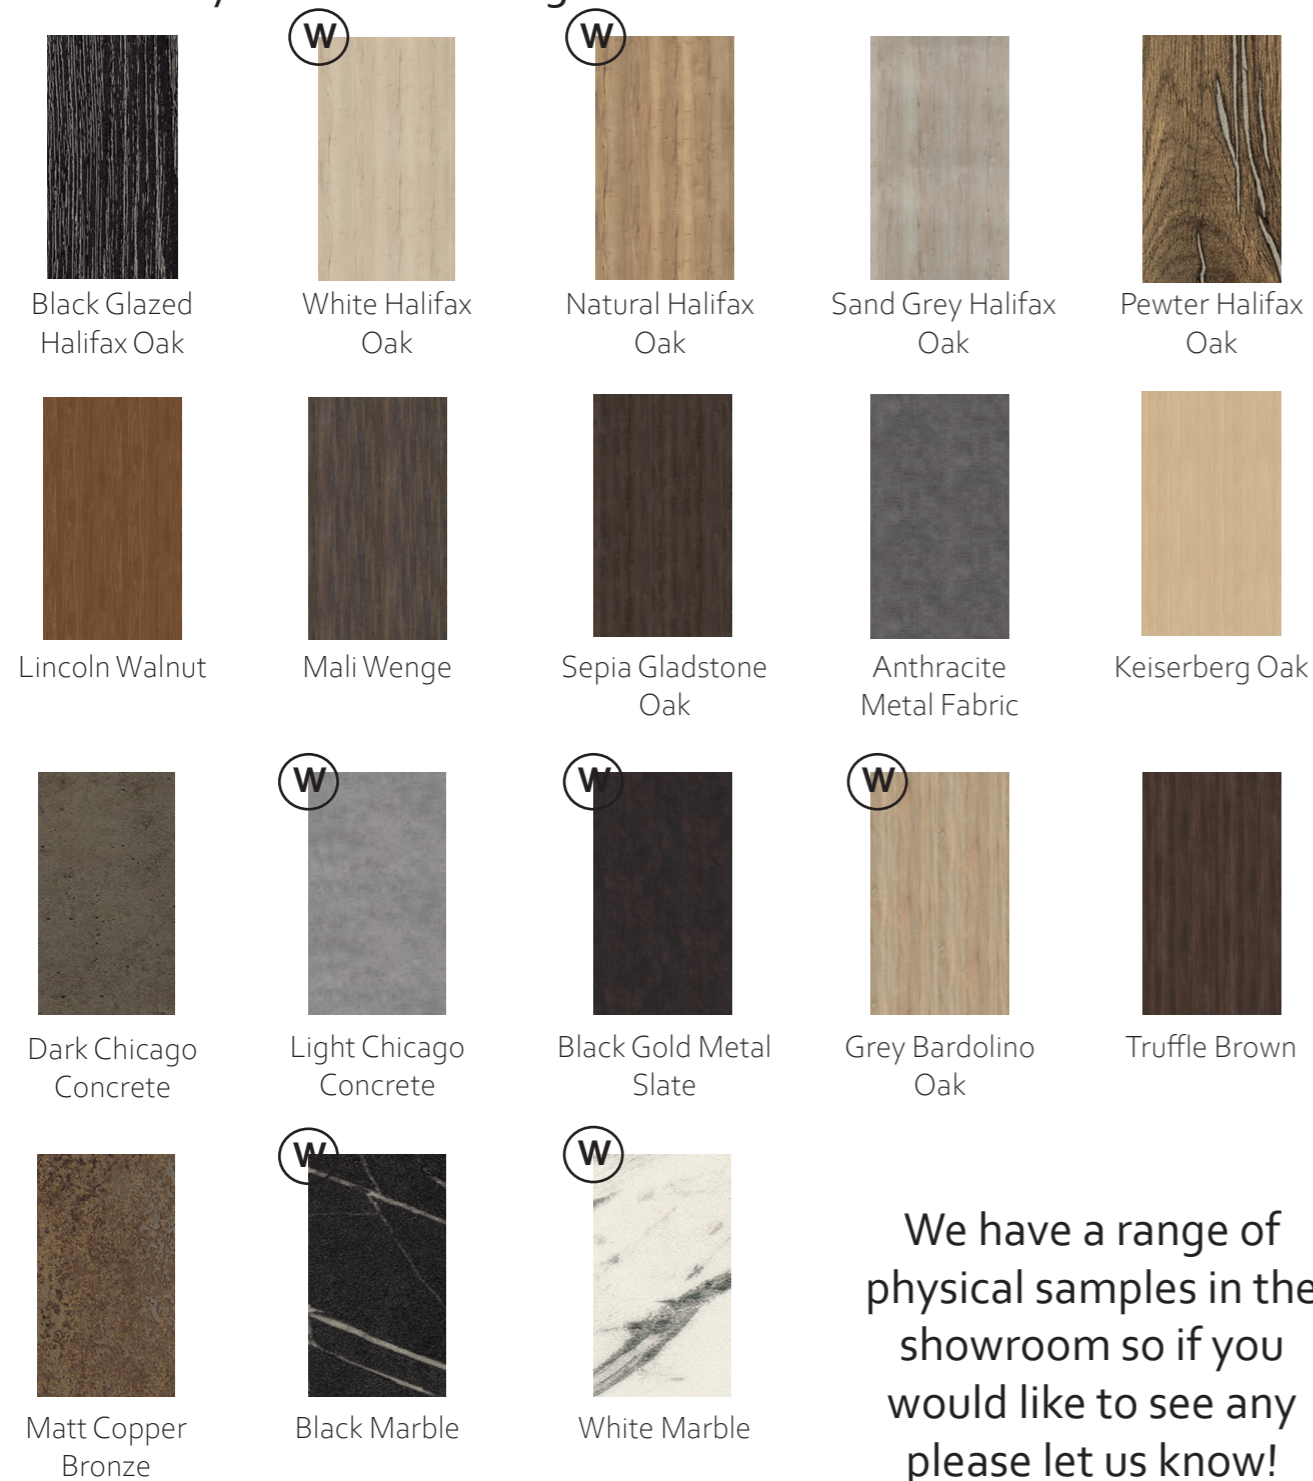

Black matt with top profile handles and Dekton work-tops

Eco Sense Material effect finishes

Our range of material effect doors help to add that little bit of texture into your interior design

We have a range of physical samples in the showroom so if you would like to see any please let us know!

W Also available as a laminate worktop
Please contact us for more details on style and thickness of laminate worktops available

Bring the outside in...

Incorporate nature into your desired kitchen by including one of these material effect finishes into your design. Combining these with the bold tones of the solid colour range, gives the flexibility to create unique spaces you'll enjoy spending time in.

Eco Sense Natural Hamilton Oak

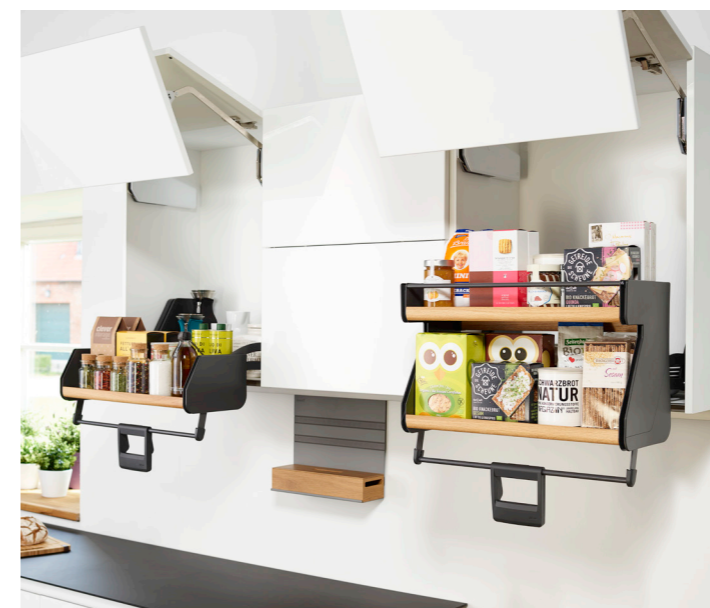

Eco Sense Storage Solutions

Our Pull out base unit has a variety of options for all your storage needs. Whether you want to store bottles, trays or towels, there is a pull out base unit to suit you.

Our Le Mans corner solution allows to maximise storage where the standard storage solutions cannot reach. The Le Mans glides with ease when pulled out and has two shelves to gain further storage space.

Our Pull down wall unit is perfect for storing spices or those favorite condiments and allows for quick access, conveniently above your head.

Our Pull out larder unit is a great tall storage solution. With multiple shelves and access from either side, this larder unit makes storage easy.

Our integrated Eco waste bin keeps waste management discreet and makes the job of changing the bin as easy as can be.

Our Legra box space tower solution is our most popular and practical storage unit. Each drawer has a 6kg weight limit and it provides easy access to all your kitchen goods.

This sturdy, reliable waste bin is available in a range of sizes and arrangements - There is an Eco bin to suite every kitchen!

Worktops

At William Cope we keep sustainability at the front of any choice of material. Here are some of the sustainable options for worktops we have to offer.

88% material from renewable resources

26% recycled material
30% by-products from the sawmill industry

Laminate

The most cost effective worktop option we supply, but the widest range of colours and textures to choose from. The Eco Sense range of laminate worktops will be sure to have what you are looking for.

See page 11 for examples.

Solid wood

The more tradition choice for worktops. Solid wood would make a great feature for your new kitchen. They may require extra maintenance, but the aesthetic solid wood brings to your kitchen is worth it. With options ranging from oak to walnut, we have the woodgrain to give your kitchen a more natural feel.

Dekton shown in Kreta

Dekton

Dekton is a sustainable, carbon neutral product which is available in 12mm or 20mm thickness. Dekton won't stain in any way, is completely heat resistant and has anti-bacterial properties. There are no limitations in terms of design with this product so let your imagination run wild.

Dekton is available in many options, here are a few examples.

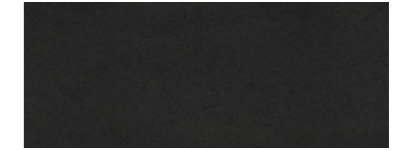

If you would like to learn more about Dekton and the options available, please contact us.
